Abstracts not included

Acamprosate
- to reduce drinking and aid abstinence 397

Acoustic startle response (ASR)
- effects of procyclidine on PPI of the ASR in schizophrenia 89

Addiction
- controversies over the SSRIs 355

Adrenoceptor
- mechanisms underlying imipramine-induced memory deficits in rats 83

Aggression
- in patient with temporal lobe epilepsy 350
- quitting ecstasy and subsequent mental health 371

Akathisia
- Barnes rating scale 365
- fluoxetine dose-increment related 451

Alcohol
- acamprosate to reduce drinking and aid abstinence 397
- correlation of hyperforin and alcohol drinking in C57BL/6J mice 403
- effects on psychomotor and attentional performance 379
- lorazepam during extinction of self-administration in rats 293

Amphetamine
- increases aversive conditioning at higher footshock intensity 67
- interaction with triazolam 17

Anticholinergics
- patterns of prescribing in hospital inpatients 223

Anticonvulsants
- in the treatment of bipolar disorder 149, 230, 239

Antidepressants
- in the treatment of ADHD 332
- in the treatment of bipolar disorder 149, 230
- REM sleep as a biomarker for the effects of in healthy volunteers 196
- thyroid hormones 431

Antipsychotics
- assessment of treatment outcome using the Routine Assessment of Patient Progress 425
- Barnes akathisia rating scale 365
- in the treatment of bipolar disorder 149, 230
- patterns of prescribing in hospital inpatients 223
- prolongation of QTc interval treated with magnesium 346
- reduced bone mineral density in patients with schizophrenia receiving prolactin raising antipsychotic medication 455

Antisense
- anxiogenic-like effect of CRF2 antisense oligonucleotides infused into rat brain 409

Anxiety
- anxiogenic-like effect of CRF2 antisense oligonucleotides infused into rat brain 409
- induced by simulated public speaking 184
- quitting ecstasy and subsequent mental health 371

Arousal
- dissociation effects of triazolam-amphetamine interaction 17

Attention deficit hyperactivity disorder (ADHD)
- antidepressant treatment in adults 332
- lofexidine in the treatment of children with 113

Barnes Akathisia Rating Scale
- revisited (review) 365

Binocular depth inversion
- effects of (S)-ketamine in man 51

Bipolar disorder
- consensus on the treatment of 147, 149
- levetiracetam in rapid cycling 239
- menstrual cycle effects on hypothalamic dopamine receptor function in 204
- pharmacological treatment of 230

Caffeine
- and clonidine effects on mood, performance and cardiovascular measures 283

Cannabis
- chronic abuse raises nerve growth factor in schizophrenic patients 439

Carbamazepine
- psychomotor effects in epileptic patients and volunteers 269

Carbon dioxide (CO_2)
- CO_2 challenge and the brain noradrenaline network 252

Clonazepam
- combination with paroxetine in panic disorder 276

Clonidine
- and caffeine effects on mood, performance and cardiovascular measures 283

Clozapine
- clinical utility of serum levels 234

Cognitive behaviour therapy (CBT)
- in the treatment of bipolar disorder 149

Cognitive deficits
- phencycline- induced improved by ziprasidone but not haloperidol in rats 57

Cognitive performance
- effect of acute tryptophan depletion 300
- effects of caffeine and clonidine 283

Conditioning
– amphetamine increases aversive to diffuse contextual stimuli and discrete trace stimulus 67
– ethanol disrupts fear conditioning in mice 77
Corticotropin-releasing factor (CRF)
– anxiogenic-like effect of CRF2 antisense oligonucleotides infused into rat brain 409
Cortisol
– increased by acute reboxetine administration in volunteers 273
– effects of baseline on the prolactin response to fenfluramine in depression 97

Dependence
– controversies over the SSRIs 355
Depersonalization disorder
– a placebo-controlled, crossover trial of lamotrigine in 103
Depression
– current therapy and future treatment strategies 337
– effect of quetiapine in schizophrenia 210
– prolactin response to fenfluramine: effects of melancholia and cortisol 97
– quitting ecstasy and subsequent mental health 371
– sertraline for depressive symptoms in patients with stable chronic schizophrenia 107
Discontinuation syndrome
– associated with nefazodone 447
– controversies over the SSRIs 355
Dopamine
– effects of D_1 and D_2 receptor function on object working memory in humans 9
– involvement of receptors of the dorsal hippocampus on the acquisition and expression of morphine-induced place preference in rat 415
– menstrual cycle effects on dopamine receptor function in women with a history of puerperal bipolar disorder 204
Driving
– residual effects of zopiclone, zolpiden and flunitrazepam in simulated task 324

Ecstasy – see MDMA
Emotional stress
– effect of on primary humoral immunity of rats 179
Epileptic patients
– psychomotor effects of carbamazepine 269
Ethanol
– comparison with temazepam on performance testing 41
– disrupts fear conditioning in C57BL/6 mice 77
Event-related potentials
– effects of lorazepam and flunitrazepam 31
Evidence-based guidelines
– for treating bipolar disorder 149

Fenfluramine (*d*-fenfluramine)
– prolactin response in depression 97
– prolactin response in personality disorder 216
Flunitrazepam
– residual effects on simulated task of collision anticipation 324
Fluoxetine
– and thyroid hormones in major depression 431
– dose-related akathisia 451

GABA-ergic drugs
– in affective disorders 174
Gabapentin
– effect on anxiety induced by simulated public speaking 184
Gambling
– effect of tryptophan depletion on probabilistic choice 3
Guidelines
– for treating bipolar disorder 149

Huntington's disease
– case reports of ziprasidone treatment 459
– why minocycline is helpful 461
Hyperforin
– correlation of content with effects on alcohol drinking in C57BL/6J mice 403
Hypericum perforatum (St John's Wort)
– correlation of hyperforin content with effects on alcohol drinking in C57BL/6J mice 403
Imipramine
– memory deficits in rats and adrenoceptor mechanisms 83
Immune function
– effects of emotional stress in rats 179

Ketamine
– effects of S-enantiomer on psychopathology and binocular depth inversion in man 51

Lamotrigine
– in depersonalization disorder; a placebo-controlled cross over trial 103
Levetiracetam
– in rapid cycling bipolar disorder 239
Lofexidine
– to treat children with tic disorders and ADHD 113
Lorazepam
– and alcohol during extinction of self-administration in rats 293
– dissociation of visual and auditory event-related potentials 31

Magnesium
– antipsychotic-induced prolongation of QTc interval treated with 346
MDMA
– effects of a single dose of psychomotor and attentional performance 379
– neurocognitive deficits associated with 242
– neuropsychiatric consequences of use 342
– self-report patterns of drug use and memory ability 389
– why people stop taking the drug and subsequent mental health 371
Memory
– deficits induced by imipramine and adrenoceptor mechanisms 83
– dissociation effects of triazolam-amphetamine interaction 17
– self-reports of memory ability and drug use 389
Minocycline
– in Huntington's disease 461
Mirtazepine
– pharmacovigilance of 121
Mood stabilisers
– in the treatment of bipolar disorder 149, 230

Nefazodone
– discontinuation symptoms 447
Nerve growth factor
– raised by chronic cannabis abuse in schizophrenic patients 439
Neuroendocrine
– menstrual cycle effects in women with a history of puerperal bipolar disorder 204
Neuropsychological function
– effect of acute tryptophan depletion 300
Noradrenaline
– and the effects of the CO2 challenge 252
– effects of caffeine and clonidine on mood, performance and cardiovascular measures 283
Nortriptyline
– and thyroid hormones in major depression 431

Obsessive-compulsive disorder (OCD)
– skin-picking behaviour after SSRI treatment 127
Olanzapine
– for recurrent aggression in epilepsy 350

Panic disorder
– combined paroxetine and clonazepam treatment strategy 276
Paroxetine
– combination with clonazepam in panic disorder 276
Performance testing
– a comparison of ethanol and temazepam 41
Personality disorder
– prolactin response to d-fenfluramine 216
Phencyclidine
– induced cognitive deficits improved by ziprasidone but not haloperidol in rats 57
Prepulse inhibition (PPI)
– effects of acute procyclidine administration on PPI of the ASR in schizophrenia 89
Prescribing practice
– patterns of antipsychotic and anticholinergic prescribing for hospital inpatients 223
Prescription event monitoring
– pharmacovigilance of mirtazepine 121
Procyclidine
– effects of on the PPI of the ASR in schizophrenia 89
Prolactin
– reduced bone mineral density in patients with schizophrenia receiving antipsychotic medication 455
– response to fenfluramine in depression 97
Psychomotor measures
– effects of caffeine and clonidine 283
– effects of carbamazepine in epileptic patients and volunteers 269
– effects of a single dose of ecstasy 379
Psychopathology
– effects of (S)-ketamine in man 51
Psychopathy
– screening version of the checklist and relationship to serotonergic function 216
Puerperal
– bipolar disorder 204

QTc interval
– antipsychotic-induced prolongation of 346

Quetiapine
– differential effect on depression in schizophrenia 210

Reboxetine
– acute administration increases cortisol in healthy volunteers 273
– promotes social bonding in healthy volunteers 189
REM sleep
– as a biomarker for the effects of antidepressants in healthy volunteers 196
Reversal learning
– ziprasidone but not haloperidol improves phencyclidine-induced cognitive deficits in the rat 57
Risperidone
– blepharospasm in a patient with schizophrenia 453

Schizophrenia
– chronic cannabis abuse raises nerve growth factor in drug-naïve patients 439
– effects of acute metabolic stress on the peripheral vasopressinergic system 317
– effects of procyclidine on the PPI of the ASR 89
– quetiapine on depressive symptoms 210
– reduced bone mineral density in patients receiving prolactin raising medication 455
– risperidone rechallenge after blepharospasm 453
– sertraline for depressive symptoms in patients with stable chronic 107
Self-administration
– effects of alcohol and lorazepam in rats 293
Selective serotonin reuptake inhibitors (SSRIs)
– current controversies 355
– skin-picking behaviour in patients with OCD 127
Sertraline
– for depressive symptoms in patients with schizophrenia 107
Simulated public speaking
– effects of gabapentin on anxiety induced by 184
Sleep
– REM sleep effects as a biomarker for the effects of antidepressants in healthy volunteers 196
Smoking
– selective processing of smoking-related cues on the modified Stroop task 310
Social behaviour
– reboxetine in healthy volunteers 189
Stress
– effects of metabolic stress on the peripheral vasopressinergic system in schizophrenia 317
Stroop task
– selective processing of smoking-related cues 310

Temazepam
– comparison with ethanol on performance testing 41
Thyroid hormones
– response to fluoxetine and nortriptyline in major depression 431
Treatment outcome
– outcome measured in pharmacological trials using the Routine Assessment of Patient Progress 425
Triazolam
– interaction with amphetamine 17
Tryptophan depletion
– effect on neuropsychological function 300

Tryptophan depletion *continued*
– effect on probabilistic choice 3

Vasopressin
– effects of acute metabolic stress in schizophrenia 317

Withdrawal
– controversies over the SSRIs 355
Working memory
– effects of D_1 and D_2 receptor function in humans 9

Ziprasidone
– improves phencyclidine-induced cognitive deficits in rats 57
– in Huntington's disease 459
Zolpidem
– dependence 131
– residual effects on simulated task of collision anticipation 324
Zopiclone
– residual effects on simulated task of collision anticipation 324
